

# Metabase Net Work Contract Announcement

**Dear users:**

The contract deployment of MNT on BSC is complete, and the url is:  
<https://bscscan.com/token/0x9c234f90F400dD16D45702f47EedcF7DBAF26904>,The project url  
is:<https://github.com/metabasenet/fruit>

In the next stage, the previous value of the two wallets will be circulated to each other, which will bring the development support for MNT2.0. The contract supports the recommendation to start mining, the vote increases computing power and provides liquidity mining. The two mining modes are applicable to different members, and you will have different experiences here!
